

CPM 8

8th International Workshop

Characterization of Porous Materials:
From Ångströms to Millimeters

May 6 - May 9, 2018
Marriott Hotel, Delray Beach,
Florida, USA

Marriott Hotel

10 North Ocean Boulevard
Delray Beach, Florida 33483

<http://www.marriott.com/hotels/travel/pbidr-delray-beach-marriott/>

CPM-8 will focus on various aspects of porous materials characterization, including experimental, theoretical, and molecular simulation methods to study structural, adsorption, wetting, and transport properties of various classes of porous solids. The range of practical applications includes porous nanostructures, biomaterials, adsorbents, catalysts, membranes, batteries, pharmaceuticals, filters, fibrous materials, textiles, paper, soil, and geosorbents.

Workshop Chair:

Professor Alexander V. Neimark, Rutgers University
aneimark@rutgers.edu

Workshop Vice-Chair:

Dr. Matthias Thommes, Quantachrome Corporation
matthias.thommes@quantachrome.com

Abstract Submission

Extended to October 31, 2017

Please follow the instructions posted on the website.

CPM-8 papers will be published in a special issue of "*Microporous and Mesoporous Materials*" after a standard peer-review process.

Visit the CPM-8 webpage <http://cpm8.rutgers.edu/> for further information, registration, and abstract submission.

Please follow the instructions posted on the website.
